OGDEN CITY, UTAH, THURSDAY EVENING, NOVEMBER 17, 1910

Entered as Second Class Matter at the Postoffice, Ogden, Utah

## TOLSTOI IS NOT DEAD

But Famous Author Is  
in a Serious  
Condition

Tula, Russia, Nov. 17.—Count Leo Tolstoi is still alive and even said to be slightly improved this morning. His condition, however, continues critical and for many hours the symptoms have been such as to give rise to frequent reports that the end had come. Such a report emanated from Moscow last night and it was some time before its falsity could be established.

The aged author passed a restless night. At 8 o'clock this morning the count was sleeping. His temperature of 101 last night had fallen to 100.4. The inflammation of the lungs was less menacing. But the pulse was weak and high and intermittent. The weakness of the heart action was the cause of the greatest anxiety and the physicians were prepared to resort to the use of oxygen.

The count was not pleased when the presence of his son Sergius was made known to him. When Sergius entered the room and was recognized by his father, Tolstoi was plainly angry and showed his annoyance by asking: "Why did you come? How did you know I was here?"

The younger Tolstoi pretended he had learned his father's whereabouts from a railroad conductor, but the count was not satisfied with this explanation.

At the same time Tolstoi was delighted at the arrival of his friend Count Vladimir Tseretkoff. The latter remained constantly at the bedside with the physicians and Tolstoi's daughter, Alexandra.

As he is, the novelist continues conscious. His physicians have moved him by allowing him to read newspapers and look over his latest and favorite book, "Hadji Murat."

He has been permitted even to dictate to Alexandra a part of a new article. A crowd of press correspondents occupy the platform of the railroad station at Astapova.

During the night an attempt was made to communicate with Astapova from here, but the telegraph operator had retired, and when a positive denial of the rumor was finally secured, the announcement that the noted Russian had passed away.

**Wife Not Admitted.**  
Astapova, Russia, Nov. 17.—The condition of Count Tolstoi at this hour (11:30 a. m.) is not beyond hope of recovery. Only his intimates who have been with him in his flight from Yasnya-Poliana are permitted at the bedside. The author's wife and others of the family who have come here are refused admission to the room in which the patient is lying, lest their unwelcome presence excite the patient.

St. Petersburg, Nov. 17.—It is reported that Count Tolstoi desires reconciliation with his wife, which he has been communicating, following the publication of his work, "Resurrection," in 1901.

According to today's papers, the Holy Synod held a secret session yesterday at which the relations of the church and the church were discussed. Bishop Parthenius of Tula, who visited the novelist last summer, participated in the deliberations and later told a representative of the press that in his opinion Tolstoi was in no doubt that Tolstoi wished the withdrawal of the church's interdiction.

A press dispatch received this afternoon from Astapova quotes the physicians as saying that a slight change for the better in the condition of the count has been noted. Friends from Moscow were admitted to the sick room for a moment.

**COMMISSION MEN  
DIE IN CHICAGO**

Chicago, Nov. 17.—Two of the best known commission men at the Union Stock yards, died unexpectedly of heart trouble at their residences last night. They were Thos. Kelly and W. W. Shearer.

Mr. Kelly, who is said to be worth \$100,000, was president of the National Livestock Commission company, with branches in St. Louis, Kansas City and Fort Worth.

In addition to his activities with this concern, he was largely interested in Texas and Oklahoma lands and was one of the largest breeders of cattle in the country. He was 52 years old and was born in Mississippi.

Mr. Shearer, who was a close friend of Mr. Kelly and who had offices in the same building, was connected with the Chicago stock yards for nearly 40 years. He was one of the oldest commission men in business here.

**WOMAN SUFFRAGE AS  
SEEN IN COLORADO**

Buffalo, N. Y., Nov. 17.—"The operation of woman suffrage and its local effect" was a subject which received especially close attention at the closing session of the combined National Municipal league in this city today.

Mrs. Mary Winsor of Havreford, Pa., president of the Pennsylvania United Suffrage league, presented a

digest of data recently collected with reference to the operation of woman suffrage in Colorado. Much of the information was obtained through letters received from many persons of prominence in civil affairs.

Of twenty-three communications from Denver, three were unfavorable, three lukewarm and seventeen favorable toward woman suffrage, considered upon actual accomplishments. The election of Miss Merdith as election commissioner, the vote securing amendments to the charter for the initiative, referendum and recall and the defeat of the so-called water "franchise grab" in Denver were attributed in Miss Winsor's report to the votes of women.

From Colorado Springs, where, according to Miss Winsor, the municipal conscience is not highly developed either in men or women, five letters received were unfavorable and eight favorable. Several writers attributed to the work of women the election of a new charter combining elements of the Galveston and Des Moines plans.

**WORLD'S MARKETS**

HEAVY DECLINE IN  
THE STOCK MARKET

New York, Nov. 17.—Opening prices of stocks declined somewhat precipitately for the most active issues on light dealings, while there was a sprinkling of gains in stocks of minor importance. Thirty-five hundred shares of Union Pacific preferred 1-1/2, St. Paul 1-1/2, Amalgamated Copper and American Smelting 1, and Northern Central, Reading and United States Steel large fractions. Pacific Telephone rose a point and Kansas & Texas 3/4. Stocks were liquidated at a lively rate for a time, the selling showing much urgency in spots.

Great Northern preferred broke 3 points, Union Pacific 2-1/4, New York Central, Southern Pacific 1-1/2, United States Express 2, St. Paul 1-1/2, Reading & Northern Pacific 1-1/2, United States Steel 1-3/8, and the list generally 3/4 to 1 point.

Buying orders were distributed when the decline was becoming serious and there were recoveries of about a point in the stocks that had been weakest.

The sharp break in prices was the outgrowth of renewed distrust of the speculative leadership on the long side. Signs of dividends being reduced were discussed in connection with the weakness of the market and the wheat stragglers. Fretful with Mexico had some depressing influence. After the thinness of the market had been demonstrated the selling was not pushed urgently.

The dealers' market into dullness. Federal Mining preferred rose 3/8 and Amalgamated Copper declined 1-5/8.

Bonds were irregular.

**New York Money.** Prime commercial paper, 5 1/2-20 per cent. Sterling exchange firm with actual business in bankers' bills at \$41.90-42.12 for sixty-day bills and at \$41.86-42.05 for demand.

Commercial bills, 4.81 3/8-5/8. Bar silver, 55 1/2-56. Gold, \$100.00. Mexican dollars, 46c. Government bonds steady; railroad bonds irregular.

Money on call, easy, 2 1/2-3 per cent. 1-2 per cent. closing bid, 2 1/2 per cent. offered at 2 1/2 per cent. Time loans, rough, for sixty days and ninety days and six months ending, at 4 1/2 per cent.

**Chicago Livestock.**  
Chicago, Nov. 17.—Close: Cattle receipts 6,000; market weak. Beeves, \$10.00-10.50; heavy, \$10.00-10.50; 530; western steers, \$10.00-10.50; stockers and feeders, \$8.00-8.50; cows and heifers, \$2.00-2.50; calves, \$7.50-10.00.

Hogs—Receipts 22,000; market weak. Light, \$7.00-7.50; mixed, \$7.20-7.50; heavy, \$7.00-7.50; rough, \$7.00-7.50; pigs, \$6.75-7.00; bulk of sales, \$7.40-7.50.

Sheep—Receipts 15,000; market weak. Native, \$2.25-2.50; western, \$2.50-2.75; yearlings, \$4.00-4.25; lambs, native, \$4.25-4.50; western, \$4.50-4.75.

**Omaha Livestock.**  
Omaha, Nov. 17.—Cattle—Receipts 4,800; market slow and weak. Beeves, \$10.00-10.50; heavy, \$10.00-10.50; 530; western steers, \$10.00-10.50; stockers and feeders, \$8.00-8.50; cows and heifers, \$2.00-2.50; calves, \$7.50-10.00.

Hogs—Receipts 15,000; market weak. Light, \$7.00-7.50; mixed, \$7.20-7.50; heavy, \$7.00-7.50; rough, \$7.00-7.50; pigs, \$6.75-7.00; bulk of sales, \$7.40-7.50.

Sheep—Receipts 15,000; market weak. Native, \$2.25-2.50; western, \$2.50-2.75; yearlings, \$4.00-4.25; lambs, native, \$4.25-4.50; western, \$4.50-4.75.

**Chicago Produce.**  
Chicago, Nov. 17.—Wheat—December, 90c; May, 93 1/4; July 93 1/4; Corn—December, 45 3/4; May, 47 3/4; July 48 1/8. Oats—December, 30 7/8; May, 34c; July 34c. Pork—January, 17.35 1/2; May 16.25. Lard—November, 10.82 1/2; January 10.67 1/2. Ribs—January, 9.20; May, 8.95. Rye, 78a79c. Barley, cash, 60a63. Timothy, cash, 9.00a9.25; March, 9.75a10.25. Clover, cash, 10.00a10.50; March 14.50.

**Sugar and Coffee.**  
New York, Nov. 17.—Raw sugar, easy; Muscovado 89 test, 3.40; centrifugal 96 test, 3.30; molasses sugar 39 test, 3.15. Refined steady. Coffee—Spot firm; No. 7 Rio, 12 1/8; No. 4 Santos, 13 1/8.

**Metal Market.**  
New York, Nov. 17.—Standard Copper dull; spot, \$12.45a12.60; December, 12.55a12.65. Lead—Quiet, \$4.40a4.50. Bar Silver, 55 1/2-56.

## NO INFANT INDUSTRIES

Protective Tariff Has  
Served Its Purpose,  
Says Northrup

Chicago, Nov. 17.—There is no patriotism in party politics, and there will be no real tariff revision until it is done by an impartial tariff commission, according to Dr. Cyrus Northrup, president of the University of Minnesota, who addressed the National Founders' association at its annual banquet here last night.

"The great trouble with the American people," he said, "is that they divide into two great parties and then fight one another. When a good measure is proposed by one party, the other party does not frankly approve the measure and help pass the laws necessary for the adoption of the measure. On the contrary, it tries to sidetrack it on some technicality, admitting that it is good in intent, but not correct in form—all because they are afraid that the party proposing the measure will get too much credit for it if the law is adopted."

"That is politics, but not patriotism. Take the tariff, for example. Unlike a majority of college officials, especially college political economists, I always have been in favor of protection and opposed to free trade. I always believed in and believe now that our country has done well to protect its infant industries."

"When our industrial enterprises become as strong as those of other nations, it is absurd to talk longer about the protection of infant industries so far as these are concerned. We all know perfectly well that the duties on a good many things might be reduced without any danger to American industrial prosperity, but we are not in a position to frankly say so and help get the duties reduced because somebody also is working as hard as possible to keep the duties as they are. We cannot afford to have protection taken from us and let it rest on other people. And so the fight goes on, everybody resisting the lowering of the tariff as far as it would affect their business."

**RIOTING OF  
STRIKERS**

Italian Strike-Breakers,  
Many of Them Girls,  
Are Attacked

Chicago, Nov. 17.—Riots by striking garment workers broke out anew today in several parts of the city after a full of several days.

About 300 strikers waited at the foot of Gauley court, the home of many Italians, for hours this morning and when the residents, employed in many instances as strike-breakers, appeared to take street cars for their places of employment, the crowd attacked them. Police from a nearby station used clubs to break up the disturbance. Many of the strike-breakers were girls.

A great deal of indignation was shown at the meeting because of the figures turned out by the government for Great Falls, as it is generally believed that these figures are erroneous and should be much larger than the bureau's award.

Washington, Nov. 17.—Director Durand in a statement, said the Great Falls returns as originally received showed a total of 23,224, or \$375 more than the correct count. The director attributes the attempted padding to three out of twelve enumerators of the city, 60 per cent of whose returns he says, were fraudulent.

The three men were arraigned and two of them sent to jail for twenty-four hours each and fined \$150 each, while the third was in prison for forty-eight hours and fined \$200. He says that the increases were obtained largely by taking the names of transient visitors to the city which were placed in the hands of the enumerators by private individuals.

The returns show a decrease from the figures of the previous year, 1908. Crawford Durand contends, "There was fraud in the 1900 census, there has been an actual growth."

**WOMEN HAVE BEEN  
VOTING IN OREGON**

Salem, Ore., Nov. 17.—B. L. Barry, election judge at Dayton, Ore., has written to Attorney General M. Crawford stating that women at his village "are in the habit of voting" and he wants to know what can be done to keep the gentler sex from the voting booths.

He says the women of the little town have been casting illegal votes, Barry fails to state. The attorney general replied, advising Barry that it is the duty of Oregon election judges to bar women voters except at school elections.

**KAYSVILLE TOMATO PAYDAY;  
\$10,000 TO BE PAID**

Kaysville, Nov. 15.—Today is payday at the Kaysville cannery factory, when something over \$10,000 will be paid to about forty farmer tomato raisers for 2,600 tons of tomatoes. These farmers live in Kaysville, Layton and Farmington, and will today receive their pay for all of the tomatoes they have harvested. While the summer was dry, the weather was ideal for harvesting tomatoes, and some Kaysville growers harvested as much as twenty tons to the acre.

**CHICAGO PRODUCE.**  
Chicago, Nov. 17.—Butter steady; creameries, 24 3/4-25 1/2; dairies, 23 3/4-24 1/2. Eggs firm; receipts 1,083 cases; at market, cases included, 19 1/2-20 1/2; fresh, 23; prime firsts, 31. Cheese steady; dales, 15 1/2-16 1/2; young Americas, 15 3/4-16 1/2; longhorns, 15 3/4-16 1/2.

**SANTA FE TRAIN IS  
WRECKED IN NEW MEXICO**

Albuquerque, N. M., Nov. 17.—The westbound Overland express, on the Atchison, Topeka & Santa Fe railroad, is reported derailed near Bluewater, N. M., about 100 miles west of

here. Railway officials say O. F. Hink was hurt, but Trainmaster O. F. Hink has left for the scene on a special train.

**HE ONLY WANTED THE  
MONEY FOR FEW DAYS**

New York, Nov. 17.—"I only wanted the money for a few days," Chas. A. Belling, third vice-president of the Bronx National bank, was heard to say during the night as he paced up and down the Tombs prison cell in which he was lodged when arrested late yesterday charged with forging a certificate of stock in the bank and obtaining a \$3,000 loan from the Knickerbocker Trust company on this security. Belling is 30 years old and married. He lives with his wife, who is an invalid, on the upper West side.

It is alleged Belling got \$3,000 from the trust company on presenting what purported to be a certificate for 25 shares of the capital stock of the Bronx National bank, worth from \$200 to \$220 a share.

**WOMEN OF  
TENDERLOIN**

Driven From a District,  
They Invade' an  
Entire City

Fresno, Cal., Nov. 17.—Chief of Police Shaw announced last night that a thorough investigation of the lodging houses in the business section of the city would take place. The announcement came as the result of a sermon by Rev. Harvey H. Hanson of the fashionable St. James Episcopal church, in which the lodging houses have existed and exists now as "awful." The existence of vice in so-called respectable lodging houses he ascribed to the "over-reaching efforts of good, but misguided, people who attempted to entirely stamp out the tenderloin."

"Advocating the setting apart of a segregated district does not imply any lack of realizing of the awfulness of vice," he continued. "Some day we hope to stamp it out. But it always has existed and exists now. The safety of our daughters depends on keeping that class in a definite district under strict police supervision."

**ROOSEVELT  
RECOVERS**

But He Refuses to Say  
a Word on the  
Election

New York, Nov. 17.—"Not a word—not a word," said Colonel Roosevelt in answer to a question as to what he thought of the recent election, when he returned to his magazine labors today for the first time since November 8.

"They are saying you can't come back," ventured a reporter.

"Not a word," said the Colonel as he bounded out of his automobile which brought him in from Oyster Bay and hurried into his office.

One of the Colonel's visitors was Colonel W. R. Nelson, owner of the Kansas City Star. The Evening Post quoted Mr. Nelson as follows:

"The West understands Roosevelt," said Colonel Nelson. "and it understands that he is not merely the leader of the Republican party—he is the leader of the American people. The parties are breaking up, and, under the influence of the West, they will take two years, it may take six years for the people to come together in the fight for their own rights, but when they do, there won't be anything to it."

"1912 for Roosevelt? It's too early to decide that, and there are too many cross currents in the political stream. The trouble is people don't realize that the last thing Roosevelt is worrying about. Only those who know him well really appreciate the thing which concerns him least when he is in action is what may happen to him."

"And this is true, whether he is going up in an aeroplane, going into the heart of Africa, or fighting to help his party out of a hole."

**WHITE HOUSE BURIAL:  
A VERY SAD DEATH**

Tooele, Nov. 16.—Funeral services for Parley Whitehouse of Elda, who was killed in a mine near town, were held at the Tooele ward meeting house yesterday in the presence of an enormous crowd. The large number of floral offerings were evidence of the young man's popularity. On Saturday morning he went to his work well and hearty, to a prospect over his father in Pine canyon. After several hours when he did not return, his father became alarmed and went in search of him. He found a few feet from the entrance of the mine, the whole side of his body blown to pieces and several ribs in the other side broken. The family was prostrated with grief over the sad affair. Young Whitehouse was born and reared in Tooele county. He was 23 years of age, the oldest son of Mr. and Mrs. Whitehouse. Besides his father and mother he leaves three sisters and a brother, a large circle of relatives and a multitude of friends to mourn his loss.

**LAYTON WATER SYSTEM;  
STOCK COMPANY FOR IT**

Kaysville, Nov. 16.—Layton, a small town two miles north of here, is to have a gravity water system and it is to be in operation by July next. This was decided at a meeting of citizens in Farmers' union hall, at which it was voted to organize a stock company and the sale of stock raise funds to install the system. The company is to be formed with a capital stock of \$25,000, divided into 250 shares. The meeting named Hyrum Adams, Rufus Adams, Morris H. Ellison, George W. Layton and Edward M. Whitesides as a board of directors to serve until the first meeting of the stockholders. Thirteen thousand dollars' worth of the stock has already been subscribed.

**ANTI-AMERICANS  
ARE EXPELLED**

Washington, Nov. 17.—The liberal leaders alleged to be responsible for the anti-American riots at Leon, Nicaragua, were expelled from Estrada, according to a telegram received by the state department from Thos. B. Moffatt, United States consul at Bluefields.

The men expelled are Zeledon, Maldonado Zelaya and Gomez Barreto.

**AGED WOMAN HAD  
BECOME DESPONDENT**

Bridgeport, Conn., Nov. 17.—Despondent over the fact that she had quarreled and separated from her 70-year-old husband, after she had lived with him only a day and a half, Mrs. Elizabeth Unger, aged 74, committed suicide by inhaling illuminating gas. Her body was found late last night.

**EVERYTHING IS QUIET  
ALONG THE BORDER**

Washington, Nov. 17.—Everything is quiet along the Mexican border and

## PRESIDENT IS PLEASED

He Also Pleases the  
People of the Little  
Republic

Panama, Nov. 17.—President Taft will sail for home today, delighted at the progress being made in the construction of the Panama canal and the cheers of the Panamanians ringing in his ears. The President's speech made last night at the dinner given in his honor by President Arce, and in which he ridiculed the report that the United States was contemplating the annexation of Panama, was published this morning and elicited earnest appreciation of the people here.

President Taft will embark on the cruiser Tennessee at Colon at 6 o'clock tonight for Charleston. He will stop at Guantanamo, Cuba, Saturday afternoon, for a brief inspection of the American naval base.

This morning Mr. Taft looked over the Pacific division of the canal and from a tug examined the completed section. This is the President's fifth visit to the isthmus, and his popularity among the natives and the canal workers is everywhere manifested.

Just to show him special honor, the men yesterday broke all division records for laying concrete at Gatun dam. At the Gatun locks 4,655 cubic yards of concrete were placed and at the spillway 540 cubic yards were laid, making a total for the day of 4,975.

This information was conveyed to President Taft in a message signed "The men," and which stated that the record work was done in appreciation of Mr. Taft's visit.

On the way home the President will dictate his general message for the approaching session of congress, having read the reports of all departments during the voyage here.

**CHANGES IN ISSUES  
OF PAPER CURRENCY**

Washington, Nov. 17.—Important changes in small issues of paper currency and a radical reform in the method of disbursing public moneys under the sub-treasury system subsequently will be recommended by Secretary MacVaneh to the treasury.

The treasury desires authority to issue paper money in denominations not needed. Mr. MacVaneh will recommend that the laws restricting the issues to certain denominations be repealed.

The demand for small notes is so great this year that the treasury is issuing \$1 greenbacks for the first time since 1885. The issue of \$5 national bank notes, now restricted by law, may be increased.

The banks asked for a provision to require the government to pay the cost of redemption of its own currency and the cost of transportation between the banks and the treasury. This Secretary MacVaneh declines to do because it would cost \$300,000 a year.

It also was desired to have gold certificates payable to order of the account of 1900, received in payment for government dues at any place where such payment could be made. This the secretary also declined to recommend, on the ground that it would reduce the cost of domestic exchange.

**WHITE HOUSE BURIAL:  
A VERY SAD DEATH**

Tooele, Nov. 16.—Funeral services for Parley Whitehouse of Elda, who was killed in a mine near town, were held at the Tooele ward meeting house yesterday in the presence of an enormous crowd. The large number of floral offerings were evidence of the young man's popularity. On Saturday morning he went to his work well and hearty, to a prospect over his father in Pine canyon. After several hours when he did not return, his father became alarmed and went in search of him. He found a few feet from the entrance of the mine, the whole side of his body blown to pieces and several ribs in the other side broken. The family was prostrated with grief over the sad affair. Young Whitehouse was born and reared in Tooele county. He was 23 years of age, the oldest son of Mr. and Mrs. Whitehouse. Besides his father and mother he leaves three sisters and a brother, a large circle of relatives and a multitude of friends to mourn his loss.

**WOMEN SUFFRAGE FOR  
A THIRD TIME DEFEATED**

Phoenix, Ariz., Nov. 17.—There will be no separate submission of the state-wide prohibition question at the election for the ratification of Amendment No. 19, which would give women the vote, adopted by a mere 2 to 1 vote, the majority report of the committee on separate submission, recommending the rejection of the proposition. For the third time, it defeated women suffrage by taking the same course with regard to the proposition for a separate submission of the vote for the women question.

**REDUCTION IN MEAT  
HAS BEEN MANIFESTED**

Washington, Nov. 17.—The so-called reduction in the price of meats is a deliberate manipulation of the market, according to Harvey W. Wiley, chief of the bureau of chemistry of the department of agriculture in a statement made here today.

"The interests which manipulated the prices upward," said Dr. Wiley, "temporarily have released their hold on our throats for the purpose of getting a free grip. The so-called reduction in meats is fictitious."

"Its manipulation was deliberate, unjust, unreasonable and unethical," by conditions throughout the country.

the Texas authorities are taking the proper measures to obviate any possibility of clashes between citizens of Mexico and the United States, according to a telegram received today by the state department from Governor Campbell of Texas.

Governor Campbell said he had no news of trouble in Utrale, where a disturbance between Americans and Mexicans was reported.

**AUSTRALIA'S POPULATION  
PLACED AT 4,474,000**

Washington, Nov. 17.—Advance estimates of the population of Australia made by the Federal statistician places the total number of people in the six states at 4,474,000, according to consular reports received here.

The taking of the decennial census will be begun on April 1, 1911, and allowing for a normal increase before that date, the population is expected to reach 4,500,000. This would represent an increase during the last decade of about 725,000.

The government, it is asserted, plans to pass the budget before appealing to the country. Debate on the financial measure is proceeding in the house, while the lords are listening to the veto bill.

That the American dollar and the Irish dictator will figure largely in the unionists' campaign, was indicated at the annual conference of Conservatives at Nottingham today when Henry Chaplin, unionist member for Wimbledon and former president of the local government board, denounced the government, which he said, was handing over the rule of the country to "the starry system of England, who with the gold of foreign millionaires, aspires to dictate our destinies."

**THIS COMET A  
CELEBRATED ONE**

Berkeley, Cal., Nov. 17.—Prof. A. O. Leuschner, director of the University of California, announced last night that calculations completed at the observatory had established positively that the comet discovered by Dr. V. Cerulli of the Collurania observatory at Teramo, Italy, is identical with Paj's comet, a celebrated cometary member of the solar system.

The calculations were made by Instructor W. F. Meyer of the local observatory and Miss Sophia Levy, a senior student in the university.

**RAILROAD OUT OF  
HANDS OF RECEIVER**

Detroit, Nov. 17.—The receivership of the Detroit, Toledo & Ironton Railway will end Dec. 1, it is said. Just what will be done with the property in the reorganization process cannot be stated, although it is supposed it will remain in the hands of the Zimmerman-Hollins interest for the time being.

Eugene Zimmerman is still president of the company and with Hollins of New York is still supposed to control the majority of the holdings. The Detroit, Toledo & Ironton had done an excellent business in the last year and has enabled Receiver Lowell to pay it in better physical condition than it was previously.

**A THREATENED CONTEST  
ON THE BALLOT FORM**

St. Anthony, Ida., Nov. 16.—Much excitement was occasioned here among Democratic political circles yesterday when word went out that the Republican leaders in the county were to institute a contest for the election just held on the grounds that the said election was illegal. The grounds for the contest are based on the fact that the official ballot of the Democratic party and at the top of the ballot these words: "Let the People Rule." This, it is alleged by the Republicans, is illegal and had its influence on the average voter, who thought it pertained to the fight question. Republican leaders in the county say that they will not under any circumstances institute a contest and that the will of the people was expressed in no uncertain terms at the election, and that stands.

Today at his home in this city, occurred the death of Prof. J. H. Bayson, aged about 55 years, death resulting from typhoid. Deceased came here several years ago with his family from Nebraska and had been engaged in teaching since that time. He was a teacher at the industrial school for some time after coming here, but later gave up that position for the principalship of the North Wilford school, where he and his wife lived. He was a devoted father, a boy and a girl, taught together. Deceased was a newspaperman by profession and was engaged in that work before coming here. He was a man highly respected among his many acquaintances. The remains will be shipped to his old home in Nebraska.

There is again a noticeable stir in electric railroad circles in this county, brought about by the closing of a contract at Idaho Falls for an electric line out of that place. This is good news to the residents of this county, as it means a continuation of the Falls line to this county. The Count De Coster, who is greatly interested in electric railways and who is the owner of one of the finest power sites in the west, located on the Teton river, states that an expert has been sent for to Omaha and will be here in a few days to look after survey work and grading contracts.

**REDUCTION IN MEAT  
HAS BEEN MANIFESTED**

Washington, Nov. 17.—The so-called reduction in the price of meats is a deliberate manipulation of the market, according to Harvey W. Wiley, chief of the bureau of chemistry of the department of agriculture in a statement made here today.
